Proficient

Needs Improvement

Not Able to Evaluate

Is committed to personal reflection as an integral component of the professional development process.

Proficient

Needs Improvement

Not Able to Evaluate

Suggested areas for improvement:

Experience, Knowledge of her content area, classroom management and discipline procedures. All of these Christina will learn through student-teaching and during her first years as a licensed teacher.

General comments:

Christina completed a practicum with me and taught one lesson. In the time she spent at Century, Christina displayed a confident, positive attitude and was willing to try a fun and imaginative lesson with World History students. I believe she has a bright future in education.
